

Journal of Operational Oceanography
Call for Associate Editors

Would you like to be an Associate Editor for *Journal of Operational Oceanography*?

Application deadline: 14 February 2019

The Journal of Operational Oceanography is a high-quality, specialized publication that comprehensively covers the latest research in the field of operational oceanography. The journal is published in partnership with the Institute of Marine Engineering, Science & Technology (IMarEST) and Taylor & Francis and has seen a recent rise in popularity reflected in the increased number of submissions and Impact Factor. The journal also publishes the annual State of the Ocean report- a comprehensive and state-of-the art assessment of the state of the global ocean and European regional seas for the ocean scientific community as well as for policy and decision-makers.

We are looking for up to three Associate Editors with an academic background in oceanography, in particular related to ocean observations, forecasting and modelling and end-user benefits of oceanographic products and services, as well as the passion to drive the journal forward in an exciting period of change.

The successful candidates will be responsible for employing the Journal's online submission and peer review system, Editorial Manager™ to choose appropriate reviewers for each manuscript and make a decision recommendation to the Editor-in-Chief. He or she will also ensure that reviewers and authors adhere to the Journal's Code of Publishing Ethics.

IMarEST will provide remuneration for the role to cover journal-related expenses and Taylor & Francis will provide full Editorial Manager™ training and administrative support. There will also be regular editorial meetings to reflect on the performance of the Journal.

Becoming an Associate Editor is a rewarding and fulfilling experience where you will build your networks, promote the research that you are passionate about, and be recognized as a leading figure within the community.

Interested in applying? Here are the kind of skills and attributes we would be looking for in the successful applicant:

- Active in the oceanographic community with strong networks
- Confidence to engage with authors, researchers and reviewers to provide a prompt and courteous service to authors
- Strong organizational skills to ensure that submissions are handled in a timely manner
- Ability to foster positive working relationships with colleagues including the Editor-in-Chief, staff at IMarEST and Taylor & Francis.

Submit your application

If you would like to apply for the position of Associate Editor, please forward your CV and a covering letter to Razina Miah, Razina.Miah@tandf.co.uk by the **14th February 2019**.
