

Invitation to Technical Meeting

TOPIC: Vessel OPEX Reduction with FUELTRAX – Electronic Fuel Monitoring

It has never been more critical to have a full picture of your fleet performance data, wherever you are working from today. Having reliable, accurate, and decision-ready data is key to unlocking OPEX reduction for all vessel types. For vessels that must stay in operation while simultaneously expected to reduce expenses, **an easy solution is to address fuel consumption from a reliable and proven approach.**

Since 2004, FUELTRAX has been leading improvements in vessel operations through accurate and reliable electronic fuel monitoring systems (EFMS). Combined with the logistics web portal, FUELNET, we will demonstrate how you can optimize your fleet's performance in real-time with decision-ready reporting of live vessel location and fuel activities. Fleets using FUELTRAX tools and recommendations have experienced **OPEX reductions of 10% or greater** in annual fuel costs using various operational modes due to the eradication of fuel-wasting behaviors previously not visible without EFMS onboard.

Join us for the IMarEST UAE Branch first-ever **webinar** and discover how our groundbreaking FUELNET features are already keeping more than 600 vessels connected worldwide.

This event is open and free to all attendees. Registration via [Eventbrite](#) before this event is required.

Speaker: Victoria Cantu, Director of Business Development FUELTRAX.

Venue	Live Webinar
Location	https://www.eventbrite.com/e/marine-offshore-opex-reduction-with-fueltrax-webinar-fuel-monitoring-registration-103862752288 - webinar link provided upon registration
Date & Program (UAE time)	6th May 2020 (Wednesday)
16:00-16:05	Opening address by Nikeel Idnani (Honorary Secretary IMarEST UAE)
16:05-16:40	OPEX Reduction Capabilities by Victoria Cantu
16:05-16:25	<ul style="list-style-type: none"> FUELTRAX & FUELNET
16:25-16:40	<ul style="list-style-type: none"> Case Study Examples
16:40-16:55	Q&A
16:55-17:00	Closing Address by Nikeel Idnani

IMPORTANT: The webinar is **free to attend**, but **advance registration is required through [Eventbrite](#)**. Registration is open until the start of the event. You will receive the access link to the webinar upon registration. Reminders will be automatically sent 48hrs, 2hrs, and 10mins ahead of the event to the email you registered. The event will be streamed live through the private YouTube link provided. If you have any questions or trouble registering, please contact communications manager, Jessica Hurd, at jhurd@fueltrax.com.
